

CULTURAL RESOURCES

NHPA SECTION 106

AREA OF POTENTIAL EFFECT (APE)

Army Training Areas on Hawaii Island

Army Training Areas on Hawaii Island

No pre-contact sites have been identified in the APE of the landing zones (LZs) at PTA. However, two possible historic sites: a historic fence line and the old Kona to Waimea government road are located within the buffer zone of several LZs. The road has been determined eligible for the NRHP. The Army has not yet determined if the fence line is eligible for the NRHP.

Historic properties located in the APE at PTA include a complex of lava tubes and blister shelters, as well as surface structures.
